

POTENTIAL HAZARDOUS WASTE SITE
IDENTIFICATION AND PRELIMINARY ASSESSMENT

REGION	SITE NUMBER as assigned by HQ
6	OK05061

NOTE This form is completed for each potential hazardous waste site to help set priorities for site inspection. The information submitted on this form is based on available records and may be updated on subsequent forms as a result of additional inquiries and on-site inspections.

GENERAL INSTRUCTIONS Complete Sections I and III through X as completely as possible before Section II (Preliminary Assessment). File this form in the Regional Hazardous Waste Log File and submit a copy to U.S. Environmental Protection Agency Site Tracking System Hazardous Waste Enforcement Task Force (EN 335) 401 M St. SW Washington DC 0460

POTENTIAL HAZARDOUS WASTE SITE
SITE INSPECTION REPORT SUPPLEMENT SHEET

Instruction - This sheet is provided to give additional information in explanation of a question on the form T2070-3

Corresponding number on form	Additional Remark and/or Explanation
II. (B) Recommendation	<p>We are recommending a "site inspection (low priority)" because we feel that "no action needed (no hazard)" does not adequately describe this site. The problem is that under RCRA the EPA has already begun an investigation. One soil sample has been found to contain lead exceeding the limit for the EP toxicity test. Our opinion is that further investigation of this site be delayed until it is determined whether RCRA will address all the areas of concern at this site. If areas such as the old unpermitted landfill are not adequately addressed, then further investigation should take place under this program.</p>
VII (A)	<p>The Oklahoma Water Resources Board is at this time considering the issuance of a permit to discharge stormwater runoff from the site. Their intention is to permit the site in order to more closely monitor it.</p>
